**Databases:** MySQL, MongoDB, PostgreSQL, Fauna, HarperDB, SQLite, MariaDB

**Tools:** Postman, Swagger, WordPress, Figma, Elementor, Webflow, Docker, GIT, GitHub, Redocly, ReadMe, AWS, Cucumber, Jmeter, Heroku, GitBook, Notion, Selenium, Jupyter, PowerBl, Docusaurus, Google Suite, GraphQL, Snagit, Mermaid, Jira

**Development Skills:** Web Development, Usability Testing and Research, Software Development Life Cycle (SDLC), Test Driven Development (TDD)

## WORK EXPERIENCE

### Data Analyst | Hope For Hiv And Aids International          April 2018 to May 2019

Hope for HIV/AIDS International has the mission to motivate, educate, and mobilize communities in Lagos Nigeria towards the eradication of poverty, reduction in malaria, and combating HIV/AIDS

My achievements:
- Analyzed data and separated data to determine the level and severity of each patient ailment.
- Disseminated information concerning patients to the respective legislative.

### Backend Engineer(Intern) | Softkave          August 2021 to July 2022

Softkave provides a chat and project/task management app primarily for startups.

My achievements:

- Wrote and ran Jest test cases to check the individual parts of the application and make sure they worked as intended.
- Played a key role by debugging and assisting in integrating innovative features into the application framework.

**Daxx Academy | Web Developer**                    **October 2022 to July 2023**

Daxx Academy teaches Software Development and all digital skills like video editing, digital marketing, and many more. Building and Management of other company's products is also being done in the company.

My achievements:

- Contributed actively to the frontend and web services development, providing valuable support to enhance user experience and functionality.
- Designed and implemented reusable UI components for a more efficient and consistent application.
- I professionally instructed individuals in web development, delivering comprehensive knowledge and skills through effective teaching methodologies.

## EDUCATION & QUALIFICATIONS

I.S.S.P.T University - BSc Computer Science (2023) - Focused on design thinking, critical thinking, and software engineering.

Gomycode - Frontend Development (React) (2023) - Specialized in frontend development with a focus on user interface design, responsive web technologies, and modern frameworks.
